

Clean Energy

Pitch-, Yaw- and Pump Motors for Wind Turbines

*Reliable
Standard-
motors*

- » Robust casted housings
- » Reliable manufacturer

- » Short delivery time
- » Dedicated contact person

Clean Energy

JDMA-V-132S4

Yaw Motors

JDMA-V-132L4

Pitch Motors

JDMA-V-132M4

Pump Motors

Strong performance

Our yaw-, pitch- and pump motors are from the market leader in China and convince by robust design. At our factory in Eutin each motor has been tested before delivery. We offer our customers high quality and reliability at a fair price.

The motors are used in wind turbines. Our world wide proven technology is known for long lifetimes. By optimized storage philosophy we guarantee shortest delivery times at maximum design flexibility.

Examples:

Type	Rated power [kW]	Rated current [A]	Rated speed [1/min.]	Voltage [V]	Frequency [Hz]	Operating mode	Motor-Type
JDMA-V-132S4	4,5	8,9	1420	400 AC	50	S1	Yaw
JDMA-V-132M4	5,0	14,6	880	400 / 690 AC	50 / 60	S1	Pump
JDMA-V-132M4	7,0	13,8	1770	400 / 690 AC	50 / 60	S1	Pump
JDMA-V-132L4	7,5	13,9	1460	400 AC	50	S1	Pitch
*GM-NK-112M4	1,5	7,1	1592	260 DC	-	S1	Pitch
*GM-NK-112L4	3,3	14	2100	280 DC	-	S1	Pitch

* Made in Germany

» Yaw Motors

21 types in the portfolio from 1,5 kW to 10,2 kW.

» Pitch Motors

15 types in the portfolio from 1,5 kW to 11,8 kW.

» Pump Motors

6 types in the portfolio from 3,5 kW to 15 kW.
